# Photoshop

To save file to PDF format choose File -> Save As->PDF

Take out the mark in ICC profile box!

In General Tab Choose Compatibility with Acrobat 4 version

In compression tab is recomended not to use compression or use ZIP com- pression if file are

to "heavy" (to high resolution)

If there is RGB Colors in working file and you choose conversion to CMYK using some pro- file (any suitable for chosen print material), chose "Convert to Destination (Preserve Numbers)" in color conversion tab.

Or choose   "No Conversions, if the file is in CMYK colors already

In any option choose "Don't Include Profiles"

Bleeds!

Right Prepared bleeds

(Trim lines in green color)
